

BLENDDED INTENSIVE PROGRAMME

AI Tools for Professional Growth Enhancing Career Competencies

Dates: 12-16.05.2025 Application deadline: 28.03.2025

Location: Wszechnica Polska Academy of Applied Sciences, Warsaw, Poland

Format: 5-day physical mobility + online activities (4 ECTS)

Language: English (B2 level)

For whom? Students of pedagogy, management and related fields (BA&MA)

About the BIP:

Blended Intensive Program (BIP) is an innovative international educational program organized within Erasmus+. During this intensive week, participants will explore the impact of Artificial Intelligence (AI) on professional development and the modern job market. Workshops and lectures will be led by experts from Poland, Lithuania, the Netherlands, Cyprus, Bosnia and Herzegovina.

Program Topics:

- ✓ The use of AI in education and management
- ✓ AI in the context of global labor market challenges
- ✓ Ethical and critical approaches to AI technology
- ✓ AI applications in management and strategic planning
- ✓ The role of AI in the information society and multicultural education

Why Participate?

- ✓ Earn 4 ECTS credits – recognized by partner universities
- ✓ Develop digital skills and learn to use AI effectively
- ✓ Gain international experience in teamwork
- ✓ Build valuable connections in academic and business environments
- ✓ Explore Warsaw and discover its history and culture

Most Important Benefits of Our Program:

- ✓ Short, intensive, and joint mobility curriculum and activities
- ✓ A rich program of social activities and study visits to institutions related to the course subject
- ✓ Opportunity to meet both students and university staff from different institutions

Register Today! Contact your local Erasmus Coordinator and join a week full of knowledge, inspiration, and international collaboration!
